The DK10SE Series is fully featured, comfortable and ready for any job that demands a durable compact tractor.

Powerful and Rugged

Open Platform ROPS Design

Climate-Controlled Cab

Fuel-Efficient Diesel Engine

Powerful HST Transmission

Hydraulic Independent PTO

Center Marker

The hood design provides the operator with excellent visibility while the center ridge marker assists with maintaining straight lines during operation.

Fender Grip

Available on each side of ROPS model tractors, these handles provide assistance while getting on and off of the tractor.

High Ground Clearance

The minimum ground clearance of 14.5 in. makes usage on rocky or uneven terrain simpler.

1 Power Steering

The standard power steering minimizes the effort required to make tight, repetitive turns.

Linked HST (Optional)

When the HST linked pedal is engaged, the HST pedal and the engine rpm are synchronized. This reduces fuel consumption and simplifies tractor operation for a variety of utility and loader applications.

Single Piece Hood

Self supported with an air cylinder, the single piece hood enables quick and convenient access for daily maintenance.

2 Deluxe Suspension Seat

The ergonomically designed, adjustable suspension seat allows the operator to ride in comfort. With a seat belt and operator presence switch as standard equipment, the DK10SE Series focuses on operator safety.

3 3-Point Control Lever

The 3-point control lever allows you to easily raise and lower the lift arms.

4 Dual HST Pedal

DK10SE models utilize a two pedal system for forward and reverse with smooth engagement, acceleration and deceleration. Dual pedals provide easier use which reduces operator fatigue during long hours of work and when doing repetitive tasks.

EXPERIENCE THE NEW AND POWERFUL DK10SE

4WD Engagement

The 4WD comes standard on all models and is engaged with an easy access lever.

Illuminated Dashboard

The illuminated dashboard ensures great visibility while working in all lighting conditions.

Power Socket with USB & AUX Port

Cab models come standard with a power socket, USB connection and auxiliary port to meet a variety of electrical needs.

Rear Differential Lock

The easily accessible differential lock lever allows for engagement/disengagement of the differential allowing you to maintain traction on uneven or muddy terrain.

Single Lever Joystick

An ergonomically designed joystick lever for front loader operation is standard on DK10SE Cab model tractors.

PTO Cruise

With one touch, engine speed may be set to maintain steady rpm to maximize working efficiency. When engaged, the operator may change the engine rpm by simply pressing a switch to increase or decrease the rpm.

Powerful HST Transmission

DK10SE Series models feature a performance proven, heavy-duty HST drive delivering power and efficiency. The three range transmission (Hi/Mid/Low) with twin pedal operation makes your job easier, smoother and safer.

Eco-Friendly Diesel Engine

The Common Rail Diesel Engine (CRDI) improves fuel efficiency while reducing noise levels. With this eco-friendly Tier 4 engine, the DK10SE Series offers the operator a quiet work environment with powerful performance.

Hydraulic Independent PTO

The standard rear PTO is easily engaged by the simple push of a button. A safety interlock prevents the engine from starting when the PTO switch is left on. All models come standard with a selectable manual or automatic PTO option. When the Auto PTO is engaged, the PTO will automatically shut off when the 3-point control is raised, eliminating exposure to the running implements.

Advanced Air Conditioning System

DK10SE cab models come standard with a cooling and heating system ensuring comfortable working conditions all year round.

Remote Hydraulic Valves

A standard single remote valve (2nd optional) accommodates a wide variety of attachments and implements.

Tool Box

Conveniently located behind the seat, this tool box provides storage the operator needs.

Ergonomic Panoramic Cab

The ergonomically designed platform has all controls conveniently located for optimum operator comfort. Large unobstructed windows provide a panoramic view for increased sight lines.
